

RECURRING PAYMENTS

Skipjack Recurring Payments is a set of powerful tools that allows you to easily process and manage periodic payments.

Lower your overall cost of payment processing, provide significant customer service benefits and reduce security risks with Skipjack's Recurring Payments.

Skipjack offers recurring payment models to meet any need, including:

Subscription Payments Model:

automatically charge the same dollar amount for each period.

Utility Payments Model: charge a different dollar amount over variable time frames.

Our Recurring Payments Management Module provides the ability to:

- Manage credit card expiry dates
- Manage payment declines
- Search and edit recurring payments
- Balance bank deposits

Skipjack's PCI* certified service decreases your security risk. Skipjack stores sensitive cardholder information for you; improving security and saving you time and

money in your PCI compliance efforts.

Recurring Payments is part of Skipjack's comprehensive suite of payment features. Skipjack offers a wide range of advanced payment solutions to meet the needs of any merchant. That's why they call us *The Payment Solutions Experts!*
